WRIGLEY FIELD NIGHT BASEBALL

2010 City of Chicago WRIGLEY FIELD NEIGHBORHOOD PROTECTION PROGRAM Annual report

I. Introduction and Basis for Report

The 2004 Chicago City Council ordinance (Title 4, Chapter 156, Section 430 of the Municipal Code) amended the original 1988 ordinance authorizing night baseball at Wrigley Field. The 1988 Ordinance authorized 18 night games a year for 15 years (through 2002). The 2004 Ordinance allowed the Cubs to

schedule up to 30 night games to be phased in by 2006 (with 22 night games in 2004 and 26 night games in 2005) at Wrigley Field during the regular season. The 2004 Ordinance extends through at least 2015.

As part of this Ordinance, the City of Chicago provides an Annual Report to demonstrate the efforts of the City of Chicago for the neighborhood protection program and communicate to residents the ongoing activities.

The Office of Emergency Management and Communications (OEMC), as with the 2005 through 2009 Annual Reports, is the designee of the Office of Budget Management (OBM) with respect to the preparation of the 2010 Annual Report.

The 2004 Ordinance included the following requirement of the City:

Annual City Report: ...*The Budget Director, or his or her designee, assignee, or transferee, annually will assemble a report of the agencies identified or described in Subsection C above, and any other relevant City or non-City departments or agencies, collating and describing their activities on, and plans for, neighborhood protection and improvement related to baseball games and any other events at Wrigley Field. The Budget Director will file this report, along with the annual written report of the Cubs specified in Section 4(H), with the City Clerk of the City of Chicago*

The 2004 Ordinance also defined a neighborhood protection and improvement program to address traffic, parking, litter, public safety and other quality-of-life issues for the neighborhoods surrounding Wrigley Field, including new and

continued responsibilities and activities by the Chicago Cubs, the City of Chicago, and other public agencies.

Contributing agencies in the compilation of this report include:

- Chicago Department of Transportation (CDOT)
- Chicago Police Department (CPD)
- Chicago Office of Emergency Management and Communications (OEMC)
- Chicago Department of Streets and Sanitation (DSS)
- Chicago Office of Budget Management (OBM)
- Chicago Department of Revenue (DOR)
- Chicago Business Affairs and Consumer Protection (BACP)
- Chicago Transit Authority (CTA)
- Chicago Cubs
- Pace

The following Report fulfills the Ordinance requirement for the City of Chicago to summarize City and relevant non-City departments' efforts related to night games at Wrigley Field during the 2010 baseball season.

II. THE 2010 CUBS SEASON

The 2010 Cubs baseball season home opener was on Monday April 5, 2010. The 2010 paid attendance for all 81 home games was 3,062,973 for an average paid attendance of 37,814 per game.

The paid attendance does not reflect “no-shows” and the actual “through the gate” attendance may have been less than the announced paid attendance. Table 1 depicts the night game paid attendance figures for the 2010 Chicago Cubs baseball season.

In addition to the 2010 baseball season:

- The Dave Matthews Band held two sold out concerts at Wrigley Field on September 17 and September 18.
- Two months later, on November 20, the Chicago Cubs hosted the Northwestern University Wildcats and the University of Illinois Fighting Illini football game, Wrigley Field's first football game since 1970.

The 2010 Chicago Cubs Neighborhood Protection Program Annual Report can be found at www.chicagocubs.com

			Totals	1,046,355

III. CITY DEPARTMENT SUMMARIZED RESPONSIBILITIES

Traffic Control

Intersection Traffic Control

Traffic control operations are the responsibility of the Traffic Control Aides (TCA) in the Traffic Management Authority (TMA) division of the Office of Emergency Management and Communications (OEMC).

These TCA- staffed intersections include areas along the bus routes that provide primary access and egress to Wrigley Field. Forty-eight (48) part time

TCAs are typically used for Wrigley Field night game traffic control services.

In addition, part time TCAs also facilitated traffic flow for the concerts in September and the historic football game in November. These totals include:

- 46 part-time TCAs on September 17 (Dave Matthews Band concert);
- 45 TCAs on September 18 (Dave Matthews Band concert), and;
- 50 TCAs on November 20 (Northwestern vs. Illinois football game).

Enforcement

Night Game Parking Violation Enforcement

The Chicago Police Department (CPD) Detail Unit manages night baseball parking violation enforcement. The Chicago Department of Streets and Sanitation (DSS) provides tow trucks. Night baseball Program enforcement activities are coordinated at the Wrigley Field Police Command Center located in the Chicago Cubs Brown Parking Garage at 1140 W. Eddy. The coordination activity starts with Police roll call briefings that occur at 4:00 P.M. for 7:05 P.M. night games.

Towing enforcement actions for night baseball resident parking violations are initiated as a result of any one of the following:

1. A citizen request to the night baseball telephone hotline 1-866-4CPD-TOW;
2. A request from an involved Alderman's office (32nd, 44th, 46th, 47th Wards), and;
3. Police designate street surveys for parking violators in one of **two designated Zones** that rotate on a game-by-game basis.

Zone 1 is the area bounded by and including Grace Street on the north, Belmont Avenue on the south, Racine Avenue on the east, and Ashland Avenue on the west.

Zone 2 is the area bounded by and including Grace Street on the north, Belmont Avenue on south, Halsted Street on the east, and Racine Avenue on the west.

The Zone that is not part of the towing operation is instead patrolled by Parking Enforcement Aides of the Department of Revenue (DOR). This enforcement is from 6:00 P.M. to 8 P.M. Between 4:00 P.M. and 6:00 P.M., the Parking Enforcement Aides issue parking violations for parking meter violations, as well as rush hour control, fire hydrant, bus stop, crosswalk, and driveway parking violations.

Enforcement priority is given to citizen and Aldermanic requests to the telephone hotline; however, the number of hotline calls is minimal. An average of three hot line calls per night game was received in 2010.

Parking violation enforcement is primarily handled by the Chicago Police Detail Unit, DOR, and the 19th and 23rd Police Districts. An average of 75 parking violations per night game were issued as part of the night game enforcement program. On average, 41 vehicles were towed per night game.

Table 2 shows the number of violations and tows written, as well as calls to the hotline, for night games during the 2010 season.

Table 3 depicts the number of cars actually towed by DSS related to Cubs night games and special event parking enforcement.

Neighborhood Liquor License Holders Management & Violation Enforcement

The Chicago Police Department (CPD) coordinates this effort by having pre-season, proactive, cooperative meetings with liquor establishments to discuss proper management of alcohol service on Cubs game days.

Criminal and Quality of Life Violations

The CPD provides for public safety and order through various management initiatives and enforcement strategies, including cross-district enforcement to address crowd control and criminal activity. The CPD has developed these initiatives and strategies as a result of input from local citizens and community groups, along with game-day experience over the preceding seasons.

The results were a total of 39 physical arrests for serious offenses committed during Cubs night games. In addition, a total of 478 Administrative Notices of Violation were issued for offenses including peddling, street performing, ticket scalping, public urination and drinking on the public way.

The Department of Business Affairs and Consumer Protection (BACP) maintains the operations of enforcement of City regulations for licensing and business public way violations. Investigations and violations in the Wrigley Field area included activities such as licensed and unlicensed parking lots, sidewalk cafes, public garages and peddling.

In 2010, a total of 285 investigations were conducted by BACP, resulting in 51 citations issued for violations.

The Department of Revenue (DOR) is responsible for issuing citations for permit parking violations in the Wrigley Field area for night games. Figure 1 depicts the boundaries for the three levels of permit parking, while Table 4 contains a recap of the night game citations issued during the 2010 season.

Trash Pick up and Litter Control

Trash pick-up and litter control by the Department of Streets and Sanitation (DSS) is intended to complement the services provided by the Cubs with the following activities during the Chicago Cubs season:

- Sweeping streets in the Wrigley Field area the following day after every game;
- Putting out baskets to collect game-related litter;
- Emptying debris after every game and on Sunday, Monday, Wednesday, and Friday when the Cubs are out of town, and;
- Replacing lost or stolen baskets as available.

V. Other City Responsibilities to the Program

Wrigley Field Advisory Meetings: *Wrigley Field Advisory Meetings will be held to report on, review, and address past, present, and potential activities concerning the Cubs and the City's activities for neighborhood protection and improvement related to baseball games and any other events at Wrigley Field; to recommend possible changes; to obtain counsel on the expenditure of the CubFund established in Section 5 of this Ordinance; and to ensure regular neighborhood review of, and comment on, those activities:*

The City Budget Director and the relevant Aldermen shall convene and co-chair a Wrigley Field Advisory Meeting at least once per year after the conclusion of each baseball season for the purposes listed in this Subsection (B).

The 2010 Annual Wrigley Field Advisory Meeting was held on March 3, 2011.

Chicago Cubs Annual Meeting

This year in order to comply with the requirements in the Night Game Ordinance; the City of Chicago is convening a public meeting to discuss the Cubs 2010 season with the surrounding community. This meeting will allow constituents an open forum to address the Cubs organization, and hear plans for the upcoming 2011 season.

**Meeting Date:
Thursday March 3, 2011
6:30 pm – 8:30 pm
23rd District Police Station
850 West Addison St**

Representatives from appropriate City Agencies will be present to answer questions posed by the community.

Traffic Operation Control Meetings: *The Chicago Department of Transportation ("CDOT") (now OEMC) will host a Traffic Operations Control ("TOC") working meeting regularly, but not less than semi-annually, to address and coordinate issues of traffic and traffic management, parking, towing, permit parking, public transit, and other transportation and related neighborhood issues related to Wrigley Field, the surrounding community and any remote parking area(s).....*

In 2010, OEMC conducted Wrigley Field Traffic Operations Control meetings on March 31, 2010 and September 13, 2010.

VI. Cubs 2004 Ordinance Directed Responsibilities

SECTION 4. Annual and Continuing Cubs Responsibilities: *To ensure the interests and concerns of the residential neighborhood that surrounds Wrigley Field are adequately protected, the following components for neighborhood protection and improvement shall be implemented.*

Operation of Bike Corral: *The Cubs will operate a bicycle parking "check room" at no charge from May 1 through the conclusion of each season (including post-season play) at or in an area close to Wrigley Field.*

Remote Parking: *The Cubs will operate a remote parking lot, with a minimum capacity of 500 vehicles, for all Night Games and weekend games, All-Star games, post-season games, and the Night Games of a split double-header, for the entire term of this Agreement.....*

The Chicago Cubs have managed the remote parking lot at the DeVry University campus located off Addison St. and Western Avenue since the 2004 season. Below are statistics detailing the use of the lot during the 2010 season.

- Total cars parked in the remote lot during 2010: 20,761
- Total fans using the remote lot: 54,952
- Average number of cars per night game: 417
- Average number of cars for Sunday games: 495
- Largest single game usage: 524

CubFund

The CubFund continues to grow. As of March 1, 2010, the balance was \$631,480. As required by the Neighborhood Protection Ordinance the Chicago Cubs continue to make annual payments to this account. Only one project was funded in 2010, which allowed for updated lighting within Challenger Park. The fund balance is \$768,122 as of March 1, 2011.

As determined in the ordinance, the relevant Aldermen and the City Budget Director will consider further appropriations of this fund, dependent on the needs of neighborhood protection and improvements.

CubFund Payments

(1) Subject to Sections 5(A)(2) and 5(A)(3), the Cubs will pay to the City \$83,334 per year as adjusted in Section 5(A)(3) during the term of this Ordinance and Agreement for unanticipated expenses related to the impact of Cubs baseball games on the area that surrounds Wrigley Field. These contributions will be known as the CubFund.....

(B) Limitation on CubFund Uses.

(1) The CubFund shall be used exclusively in furtherance of neighborhood protection and improvement for matters related to Cubs baseball games and other events at Wrigley Field.

(2) The CubFund shall be used exclusively within the area bounded by the North Branch of the Chicago River, Diversey Parkway and Avenue, Lake Michigan, Buena Avenue, Clark Street from Buena Avenue to Montrose Avenue and adjacent blocks, and at or around any remote parking lots.

(C) CubFunds Segregation and Annual Appropriation.....

(2) Resources from the CubFund will be annually appropriated and expended in a general spending plan that is consistent with this Section 5. The expenditures will be determined jointly by the relevant Aldermen and the City Budget Director in furtherance of neighborhood protection and improvement for matters related to Cubs baseball games and other events at Wrigley Field, taking into account the counsel given at the Wrigley Field Advisory Meetings established by this Ordinance as well as the input of the Cubs, in an ordinance presented to, and approved by, the City Council of the City of Chicago.

VII. Public Transportation

Chicago Transit Authority (CTA)

Chicago Transit Authority (CTA) provided increased bus and rapid transit service to Wrigley Field for all games, including Purple Line Express rapid transit service at the Addison Street Station.

Promotion of public transportation was encouraged through OEMC public outreach as well as by the CTA, in coordination of the Chicago Cubs. Public announcements at Wrigley Field also continued in 2010.

Pace

Pace shuttle services were provided to night and weekend ball games from the Yorktown Center in Lombard and the Northwest Transportation Center in Schaumburg. A Pace bus stop was established on Clark Street (eastside) immediately south of Waveland Avenue to clearly establish the loading area for this important service.

Table 5 below compares Wrigley Field Express Service ridership for 2010 and 2009:

Table 5: Wrigley Field Express Service Ridership, 2009 and 2010				
	Yorktown		Schaumburg	
Month	2010	2009	2010	2009
April	800	602	1,298	1,263
May	2,311	2,149	4,192	4,226
June	2,989	1,828	5,340	3,436
July	3,539	4,287	5,932	8,714
August	3,372	2,646	6,597	5,451
September	1,651	942	2,438	2,060
Total	14,662	12,454	25,797	25,150

VIII. Public Information

OEMC has provided public information to residents regarding events at Wrigley Field, including traffic, parking and safety messages through multiple venues. OEMC provided information through Media Advisories and Press Releases, website postings, and Notify Chicago Alert messages. Several examples can be found in the Exhibit section.

In addition, OEMC works in cooperation with the Cubs to prepare periodic press releases reminding area residents, visitors to the Community, and Cubs fans of such traffic control measures such as the Night Baseball Permit Parking Program and the remote parking and public transportation alternatives that are available.

OEMC continues to coordinate with the Illinois Department of Transportation (IDOT) for the use of dynamic message signs in static locations on the Kennedy Expressway approaching Addison Street to provide remote parking information for incoming fans.

There are three locations in the IDOT system used to display this same information:

1. Westbound Kennedy Expressway at Damen;
2. Eastbound Kennedy Expressway at Foster, and;
3. Eastbound Edens Expressway at Niles Center Road.

Cubs night game traffic is a topic of discussion at the weekly OEMC Traffic Meeting held at the 911 Center. These meetings are frequently attended by IDOT representatives.

Barricades

In 2010 the City of Chicago employed 38 parking reminder barricades throughout the parking zone areas to inform and remind residents and visitors of the night game schedule. The barricades noted that any postseason night games and night concert dates were "To Be Determined." As noted earlier, there were two concerts in September and a football game in November.

The objective is to make residents and visitors unfamiliar with the area aware of night game and concert dates, and thus avoid unintended tow sanctions associated with parking violations.

IX. Conclusion

The City of Chicago continues to provide services designated in the Night Baseball ordinance and strives to maintain operations of the Wrigley Field area for the protection of the residents and visitors and to reduce the impact of the games on local residents as much as possible.

The City will continue to provide opportunities for feedback through the Traffic Operation and Advisory Meetings and report on the activities in relation to this effort.

Exhibit 2 – 2010 Night Baseball Parking Violation Enforcement Plan

2010 WRIGLEY FIELD CUBS NIGHT BASEBALL RESIDENT PARKING VIOLATION PARKING ENFORCEMENT PLAN

The objective of the Wrigley Field night baseball resident parking program is to preserve limited available on-street parking for area residents on Cubs night game dates. It is not the objective of the program to subject area residents or their guests to Resident Parking Program violation enforcement actions.

ALL VIOLATIONS OF PARKING REGULATIONS THAT RESULT IN A PUBLIC HAZARD SHOULD BE STRICTLY ENFORCED. (i.e. fire hydrants, bus stops, crosswalks, driveways, and alleys)

The Chicago Police Department Detail Unit manages and coordinates night baseball parking violation enforcement. The Department of Streets and Sanitation provides tow trucks. Normally eight police officers and as many as eight tow trucks are assigned to this activity. Night baseball Program enforcement activities are coordinated at the Wrigley Field Police Command Center located in the Chicago Cubs Brown Parking Garage at 1140 W. Eddy.

The night baseball program area involves four City wards

1. 32nd Ward (Alderman Scott Waguespack) - 2657 N. Clybourn Avenue (773) 248-1330
2. 44th Ward (Alderman Thomas Tunney) - 1057 W. Belmont Avenue- (773) 525-6034
3. 46th Ward (Alderman Helen Shiller) - 4544 N. Broadway (773) 878-4646
4. 47th Ward (Alderman Eugene Schuler) - 4237 N. Lincoln Avenue- (773) 348-8400

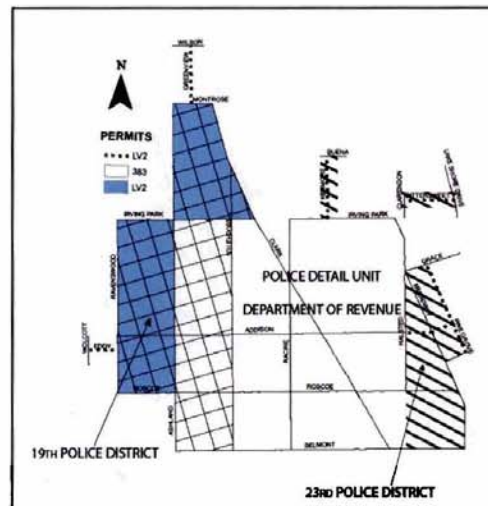

Night baseball resident parking restrictions are primarily enforced by the:

- Chicago Police Department Detail Unit
- Chicago Police Department 19th Police District
- Chicago Police Department 23rd Police District
- Department of Revenue Parking Enforcement Aids

(See map to right that shows areas of responsibility.)

Towing enforcement actions for night baseball resident parking violations are initiated as a result of any one of the following:

1. A citizen request to the night baseball telephone hotline 1-866-4CPD-TOW (866-427-3869).
2. A request from an involved Alderman's office (32nd, 44th, 46th, 47th Wards).
3. Police designated street surveys for parking violators in one of two designated Zones that rotate on a game-by-game basis.

Zone 1 is the area bounded by and including Irving Park Road on the north, Belmont Avenue on the south, Racine Avenue on the east, and Ashland Avenue on the west.

Zone 2 is the area bounded by and including Irving Park Road on the north, Belmont Avenue on south, Halsted Street on the east, and Racine Avenue on the west.

Towing enforcement is primarily initiated by Detail Unit enforcement personnel in the Zone designated for towing.

The Zone that is not being enforced as part of the towing operation is enforced with parking violation enforcement by Parking Enforcement Aides of the Department of Revenue.

This enforcement goes from 6 PM to 8 PM. Between 4 PM and 6 PM, the Parking Enforcement Aides issue parking violations for parking meter violations, as well as rush hour control, fire hydrant, bus stop, crosswalk, and driveway parking violations. Eight Parking Enforcement Aides normally are assigned to this enforcement activity.

RESIDENT PARKING PERMIT TYPES (See attached.)

There are five different types of resident parking permits issued for the night baseball resident parking program area.

1. **Zone 383 Annual Resident Parking Permits**
2. **Zone 383 Single-day Guest Parking permits**
3. **All-game LV2 Night Baseball Resident Parking Permits (Window Stickers)**
4. **All-game LV2 Night Baseball Resident Guest Parking Permits (Window Plaques)**
5. **Single-game LV2 Night Baseball Resident Guest Parking Permits (Window Plaques)**

Zone 383 Resident Parking Permits are only valid on posted Zone 383 streets.

Night Baseball (LV2) Resident Parking Permits are only valid on posted LV2 Zone streets.

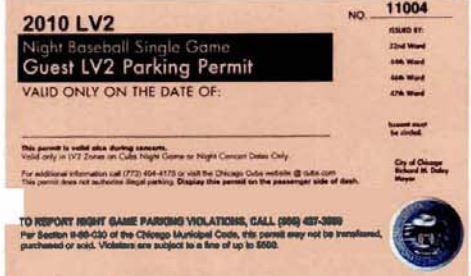

All-game LV2 Night Baseball Resident parking Permits (Window Stickers) are only valid when displayed on a vehicle also displaying a valid City vehicle sticker. Guest permits do not have this requirement.

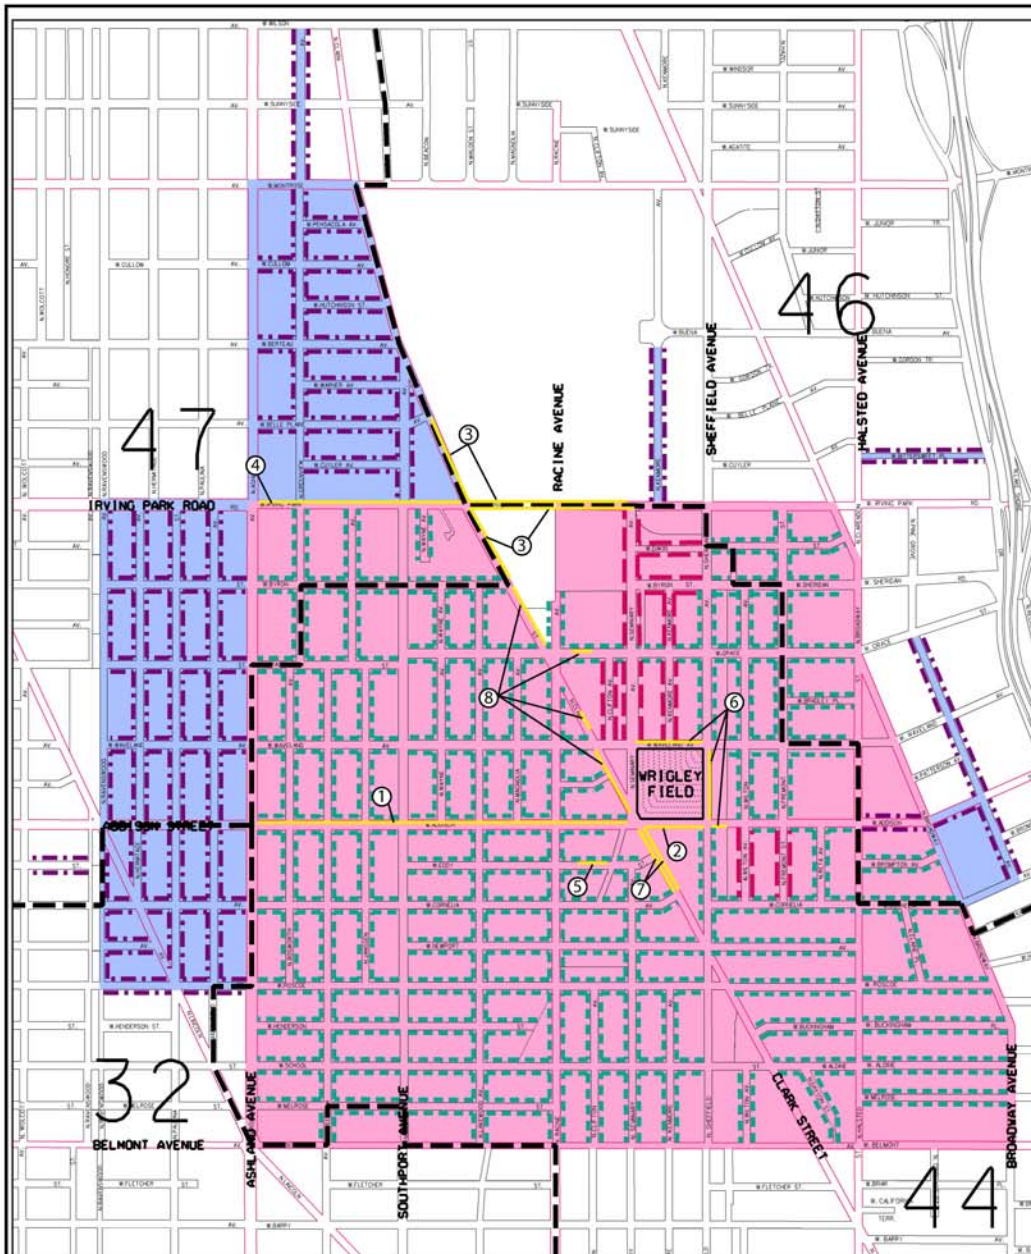

Vehicles designated as trucks are not eligible to receive a resident parking permit, as Title 9-64-170 of Municipal Code prohibits the parking of trucks on City streets.

Motorcycles are exempted from the requirement to display a resident parking permit.

Vehicle towed as a result of an enforcement action are towed to **Auto Pound #6 at 701 N. Sacramento (773) 265-7605**. A citizen can check to see if their car has been towed by calling 311.

WRIGLEY FIELD NIGHT BASEBALL TRAFFIC PLAN

2010 Lake View Community Night Base Ball Resident Parking Advisory/Reminder

Zone 383 residential permit parking is now in place on all Lake View residential streets in the area bounded by Irving Park Road, Broadway, Addison Street, and Ashland Avenue. These streets will be a Cubs' night game tow zone from 5 PM to 10 PM on night game dates. Residents in Zone 383 will not be mailed a free LV2 resident parking permit.

There is no longer a separate annual residential permit parking sticker. If you purchase an annual residential parking permit, your vehicle sticker includes your residential parking permit zone number (as depicted below). The permit parking zone number is printed right on the vehicle sticker.

Annual residential parking is \$25, in addition to the cost of your vehicle sticker. The annual permits expire on June 30th of each year. Single day guest permits are available at a cost of \$8 for a book of 15 permits. Residents must show proof of residence to purchase the single day guest parking permit.

Eligible residents that live in the remaining LV2 zone (residential streets north of Irving Park, west of Ashland, and east of Broadway) will be mailed a LV2 permit and a guest passes. Additional permits and guest passes, including single game guest passes for businesses, are available at their Aldermanic offices.

Also, residents are reminded, per section 9-68-020 of the Chicago Municipal Code, all parking permits may not be transferred, purchased or sold. Violators are subject to a fine of up to \$500.

Lake View/Uptown residents are encouraged to report parking violation or other illegal activities during night games to the Police/Cubs Hotline Phone Number-- 866-4-CPD-TOW (866-427-3869)

Residents are reminded of the night base ball resident parking enforcement policy:

- **Night BB (LV2) Resident Parking Permits are not valid in the 383 Zone.** LV2 permits will only be valid on posted LV2 streets.
- **Zone 383 Resident Parking Permits are not valid in the LV2 Zone.** Zone 383 permits will only be valid on posted Zone 383 streets.

Vehicle towed as a result of any enforcement action are towed to Auto Pound #6 at 701 N. Sacramento (773) 265-7605. It will cost, at minimum, \$160.00 to retrieve a vehicle. A citizen can check to see if their car has been towed by calling 311.

If you have any questions, please call:

1. 32nd Ward (Alderman Scott Waguespack) - 2657 N. Clybourn Avenue (773) 248-1330
2. 44th Ward (Alderman Thomas Tunney) - 1057 W. Belmont Avenue- (773) 525-6034
3. 46th Ward (Alderman Helen Shiller) - 4544 N. Broadway (773) 878-4646
4. 47th Ward (Alderman Gene Schulner) - 4237 N. Lincoln Avenue- (773) 348-8400
